

## President's Cabinet Meeting Minutes

May 20, 2024

1. ATD Student Parent Initiative: Roane State's ATD coaches met with Cabinet to discuss the Student Parent Initiative plans for listening sessions with faculty, students, student support personnel, and administrators. The project will conclude on June 30. The coaches will provide a report with recommendations for strengthening support for student parents and those who are caring for minor children through different relationships.
2. Work Week Parameters: Chancellor Tydings has announced to the presidents that campuses must have some onsite open presence five days per week, beginning with fall semester 2024. Not every department/office needs to be open during this time, but the intent is to offer open access to support students. Starting with fall semester, police and security personnel will be assigned to all campuses on Fridays. Each campus will need to determine which offices(s) will be open on Fridays if that campus has not typically been open that day. The new Alternate Work Arrangement policy may help facilitate this. Marsha Mathews is in the process of finalizing this policy, and it will be sent out for college review.
