Expanding minds across the Plateau

FALL 2024

Center for Lifelong Learning
2567 Cook Road
Crossville, TN 38571
<https://roanestate.edu/CLL>
cclteam@cclcrossville.org

The Center for Lifelong Learning (CLL) invites residents of Cumberland County and nearby communities to become members and take part in the joy of lifelong learning. Our goal is to provide opportunities for our members to experience a supportive, community-based environment which enriches the lives of adults, regardless of age, background, or educational level. The Center for Lifelong Learning (CLL) is a 501c3 non-profit organization.

CLL designs the programs to reflect interests of the community, and may include classroom sessions, field work, local trips, or other activities. All presenters are volunteers who are particularly passionate about their subject matter and wish to share their knowledge and experience with others. CLL is supported by Roane State Community College (RSCC). RSCC provides classrooms and administrative support to the program.

We are actively seeking suggestions for future classes as well as volunteer presenters!

CLL holds three semesters per calendar year, each typically lasting 3 to 4 weeks.

<u>Term</u>	<u>Begins</u>
Spring	March
Summer	June
Fall	October

- Classes are filled on a first-come, first-served basis.
- Registration remains open, as space allows, after the semester has begun.**
- **2024 FALL classes run from October 1st to October 31st.**
- Check the course location in the catalog description carefully—some classes may be held at locations other than the RSCC Crossville campus.

CLL members will register for classes via our automated online registration system. Anyone can browse the class descriptions, but only users who have an account and have paid membership fees may register for classes.

NEW FOR 2024:

You may pay \$20 for a single term, or pay \$40 for a full year (3 terms, savings of \$20.)

Returning students who already have an account and have paid the membership fee for 2024 can log in and proceed directly to class registration. Otherwise, members must log in and pay the annual \$40 membership fee for 2024 or the single term \$20 membership fee before proceeding to class registration. Returning students who did not create an account should follow the directions on page 3.

New students will need to create an account and pay membership fees before registering for classes. Instructions are given on page 3.

If you have any questions or problems email us at cllteam@cllcrossville.org. Volunteers typically reply in 24-48 hours.

ART & CULTURE

1041 Alcohol Ink Ornaments

In this class, students will use alcohol inks to transform clear glass bulbs into unique, one-of-a-kind decorations. The process is very simple, and students can select colors to personalize ornaments for either year-round display or for holiday decor. All materials will be provided. *Consider wearing old clothing in case of spills.* **There is a \$5.00 material fee payable to the instructor on the day of the class.**

Since childhood, Michelle Bayless has loved crafts of all kinds. From print making, to carving, to needlework, to crocheting, to painting, to beading, to jewelry making, there's little she hasn't tried. As a former educator, Michelle loves teaching others how to create unique, one-of-a-kind crafts.

IS A CLASS YOU WANT FULL?

If a class is full, please register anyway. You will be put on the wait list in case a seat becomes available. The number of students on a wait list also helps the CLL team determine which classes should be offered again in a future semester.

-----COMPUTER-----

1522 Secure/Encrypted Email and Calendar – Do You Need It?

This class will provide information on the benefits, features, and limitations of secure/encrypted email and calendar services. A high-level description of the encryption method used by most providers will be included. A brief introduction to a variety of secure and insecure email/calendar providers with an emphasis on ProtonMail will follow. The process to set up and transition to a new email service will be covered in detail. Time permitting, there will be an introduction to email filters. A detailed handout will be provided.

Dave Korb has a degree in Electrical Engineering and 35 years of experience as an Information Technology professional. He has a passion for privacy and security using reliable and efficient technologies. Dave has worked in the engineering and technology departments for AT&T/Lucent Technologies, Sears Holdings, and a couple of startup companies in roles ranging from support, deployment, development, and architecture.

-----FINANCE-----

2029 Reverse Mortgage 101

This class will cover the basics of the FHA insured reverse mortgage. We will also discuss the variation of that mortgage that is used for a purchase.

After years of conducting closings in the title industry in Florida and seeing the smiling faces of families benefiting from the FHA reverse mortgage, Antoinette Cassavaugh was eager to enter the field to have a part in helping these families. In 2014 she obtained her license. Antoinette believes that it is important to help the retiree, their family members, and their trusted advisors to understand the workings of the mortgage.

One session: Thursday, October 10th; 10:00 am – 11:30 am

RSCC, Crossville Campus

Class Size—Min: 5 Max: 40

Please bring a sweater to class, as the heating and cooling at RSCC is controlled by a computer at the Harriman campus.

HISTORY

3058 The Effects of the French and Indian War on the American Revolution

The French and Indian War put the British Colonies in the crosshairs of two major world empires as they competed for control of North America. The struggles experienced in colonial America during this nearly decade-long war caused colonists to question their bonds with Great Britain. We will survey major events of the French and Indian War and see how the war had reverberations that led to the American Revolution.

Dewayne McGhee is a 1995 graduate of Cumberland County High School, where he fell in love with American History as a student in

JC Davis's American History class. He graduated from Tennessee Technological University (TTU) in 2000 with a B.S. in Business Management. He returned to TTU and graduated in 2005 with his M.A. in Secondary Education. Dewayne taught history in Cumberland County Schools for 20 years. Dewayne accepted the position of Campus Director at Roane State Community College in Cumberland County in August of 2023.

3059 The Three Presidents from Tennessee

Mr. Davis, dressed in period attire, will provide an entertaining look at Presidents: Andrew Jackson, James K Polk, and Andrew Johnson, all hailing from Tennessee. Their lives before and after their presidencies will be discussed, including little known fun facts. As a special treat, Mr. Davis will provide students samples of some of their favorite foods.

J.C. Davis is a graduate of Cumberland County High School. JC achieved degrees from Freed Hardeman College, Harding College, and Tennessee Tech. He returned to Cumberland County HS as a teacher for 34 years and has been an adjunct professor at Roane State Community College for 30+ years, primarily as a history teacher. JC and his wife of 46+ years have traveled to many historical sites all over America, collecting stories and historical artifacts. He has used these experiences in many historical reenactments and community activities including Pioneer Day.

-----OUTDOOR ADVENTURES-----

5276 Tales of Tragedy, Adventure and Interesting Characters from the Smoky Mountains

The Great Smoky Mountains National Park is one of the largest wilderness areas in the Eastern United States. More than 12 million visitors a year enter the park. Most visits are joyous adventures but some end in tragedy. John McArthur will talk about some of the more notorious events. He will also tell you about some very interesting characters from the Smokies and their adventures.

John McArthur is a native of Blount County and grew up near the Smokies. He is a retired lawyer and lived near the Smokies virtually his entire life. John has camped in all the developed and primitive campgrounds in the Smokies, hiked over 1500 miles of Park trails including the 71 miles of the Appalachian Trail in the Park. Trout fishing, hiking, and camping are some of his favorite pursuits.

5278 Protecting the Obed Watershed

Everything we put in, or on, the ground ends up in the water somewhere! This course will present information about the Obed Watershed and its impact on the water in Cumberland County. The need to protect the watershed and methods to do that will be discussed. Ways to reduce erosion of stream banks by slowing stormwater run-off, encouraging biodiversity, especially the reintroduction native plants and clearing pollutants and trash will be covered. The functions of the Obed Watershed Community Association (OWCA) will be mentioned.

Bill Morgan taught at the University of Texas Health Sciences Center for 40 years, retiring as a Professor Emeritus. His passion now is educating those living on the Cumberland Plateau about the Obed Watershed and the importance of erosion protection provided by native plants. He is a member of the Cumberland County Master Gardeners and the Obed Watershed Community Association (OWCA).

RELIGION

6015 Sacred Journey

Do you yearn for a deeper connection with God? Are you spiritually curious and open to uncommon methods? Using selections from the Tanakh (Jewish scriptures), the New Testament and additional inspired writings, we will explore ways to interact with the text for a personal encounter with the Creator. Each of the three class meetings will highlight different spiritual practices designed to help you communion with God.

Continuity of attendance will make the concepts easier to grasp. Time during class will be allocated for meditation, journaling, and small group sharing. Journals and some art supplies will be provided but you are welcome to bring your own. *After the last class, an optional field trip to walk a prayer labyrinth located 6.5 miles away from Roane State campus will be offered.*

Christine Lister has used these spiritual practices for over 20 years to enhance her connection with her Savior, Jesus. She has a deep reverence for sacred texts found in the Bible. Christine is a licensed marriage and family therapist who seamlessly blends psychological and spiritual elements as appropriate in her counseling practice. She delights in helping others in their spiritual journey to find meaningful connection with the God of the universe.

SOCIAL STUDIES

7054 The Articles of Confederation, America's First Constitution

This session of the "Learn About Your Government" series focuses on the Articles of Confederation. Following the Declaration of Independence, this document was created in 1777 to establish an enduring friendship between the 13 colonies (now known as states). The founding fathers adopted the Articles to form a national government in which the states could govern themselves. The "enduring friendship" was shaky from the beginning and did not last beyond 1789 when the present Constitution was adopted. We will discuss the Articles of Confederation and the problems that arose, along with how the US Constitution was meant to correct for those problems. **This class will NOT be a discussion of current political issues.**

Dr. Cheryl Brown, professor emeritus of Marshall University, has taught political science courses for years. Her favorite classes have always centered around basic American government and history. Cheryl has developed a series for the Center for Lifelong Learning titled "Learn About Your Government". Having a fundamental grasp of how our government works and its history benefits everyone.

Who Are the Class Presenters at CLL?

The retired Navy pilot in your neighborhood, a doctor from the local hospital, someone who loves to play card games, and just maybe **YOU**, too!

All presenters are volunteers who have discovered the joy of sharing their knowledge in a meaningful and fulfilling way. Please email cllteam@cllcrossville.org if you'd like to consider sharing your passion or life experiences to further expand our course offerings.

USE OF PHOTOS AND VIDEOS

CLL reserves the right to use photographs and/or videos taken in any CLL class or at any sponsored activity, without the expressed written consent of those included in the photograph/video. Photographs may be used in any CLL publication, including but not limited to: newsletters, brochures, course catalogs, emails, websites, Facebook pages, and/or other print or online media designed to help the organization meet its goals.

MISCELLANEOUS

8024 Mah Jongg Made Easy

In this class you will learn the basics of American Mah Jongg, including recognition of tiles, suits, how to read the Mah Jongg cards, rules of the game and strategies. A packet including a course syllabus and handouts will be provided on the first day.

Originally from Michigan, Nita Hawes moved to Fairfield Glade 23 years ago. She had never heard of Mah Jongg until she met some ladies who wanted to start a beginner class. They weren't sure how much interest there would be in playing Mah Jongg.

That was 14 years ago and today, there are many groups of Mah Jongg players in the Crossville area.

Nita has taught many classes on the basics of Mah Jongg both privately, and in a classroom environment.

Nita loves to play Mah Jongg!

Four sessions: Mondays & Wednesdays: Oct. 7, 9, 21, & 23rd; 2:30 pm – 4:30 pm RSCC, Crossville Campus
Size—Min: 4 Max: 8

8025 Playing Bridge for Beginners

We will start by defining and illustrating basic terms. You'll learn how to "value" your hand (13 cards), and bid your hand. You'll play with your 'partner' against another pair of players. We will discuss two styles of bidding, but will concentrate on the newer convention, American Standard. You'll spend time playing games and analyzing your play. We will also discuss the scoring and some basic playing strategies. As in every group, some people will be quicker to pick-up the concepts. They will be asked to help those others who might be struggling a bit. You should leave at the end of the last class feeling comfortable playing with others.

Stuart Napear has been playing bridge on and off for 52 yrs. He has played in small groups and large groups. Stuart has played "party bridge", Chicago scoring version, and duplicate bridge. He enjoys taking part in games where no one takes themselves too seriously. Stuart's philosophy is that if you are not "enjoying playing bridge", then why not be doing something else?

Five sessions: Wednesdays: October 2, 9, 16, 23, & 30th; 9:00 am – 11:00 am RSCC, Crossville Campus

8026 Home Maintenance 101

This class will present a wide range of basic information for the novice handy person. Topics will include basic maintenance, troubleshooting and repair of drywall, plumbing, electrical features, doors and windows, flooring, masonry, and others. Also, an explanation of basic hardware, fasteners, adhesives, and sealers will be presented.

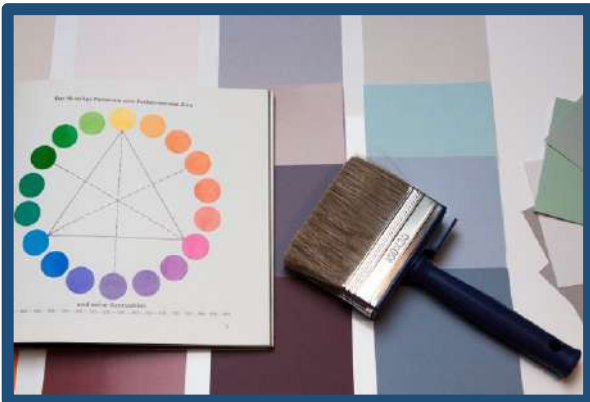

Richard Morawski started his own property maintenance business after completing a 25-year career in the Navy where he specialized in engineering and repair. He built a home in Florida acting as the general contractor, and has renovated numerous others. In between Navy duty stations, Richard attained an Associates of Applied Science in Industrial Management.

8027 Interior Design Bootcamp

Jessica Barbara Schatz can't teach you everything about color and interior design in a couple of hours, but she can teach you how to have confidence in your own design flair and creativity.

Jessica Barbara Schatz attended art school in Colorado and Boston School of Interior Design. She has worked with premier home builders designing Parade (show homes). Jessica is still very involved locally with design, and many of her clients commission paintings and photographs. Jessica's more than thirty-years of experience as an interior designer have brought her great joy in bringing client's design visions for their homes to fruition.
